FORECAST DISCUSSION

AFTERNOON UPDATE: A NICE AFTERNOON IS SHAPING UP FOR THE COLORADO SPRINGS AREA AS PRODUCTION FOR "ARMY" CONTINUES. TEMPERATURES WILL BE WARMER THAN THEY HAVE BEEN LATELY, WITH HIGHS IN THE UPPER 80'S EXPECTED BY LATE AFTERNOON. WINDS SHOULD BE ON THE LIGHT SIDE (LESS THAN 10 MPH) OUT OF THE SOUTH TO SOUTHEAST FOR THE REST OF THE DAY. ADDITIONALLY, UNLIKE PAST DAYS, SHOWERS & STORMS WILL NOT THREATEN PRODUCTION THIS AFTERNOON OR EVENING. GOOD LUCK! A COLD FRONT WILL BRING AN INCREASED THREAT FOR THUNDERSTORMS AGAIN BY TOMORROW EVENING, THEN DRY FOR THE WEEKEND!

WEATHER FORECAST FOR TODAY (THURSDAY)

TIME	TEMP	WIND (MPH)	WEATHER	CLOUD COVER	PROB OF PRECIP
SUNRISE: 6:19 AM			SUNSET: 7:45 PM
